

Worksheet 4.1-1.1:

MAN-MADE WATER CYCLE

Directions: Study the picture and find out the paths of water distribution and water disposal systems. Take coloured pencils and colour the pipes in the water distribution system in blue, and the pipes in the water disposal system in orange. Name and mark all the elements of the man-made water cycle:

- _____ water resource
- _____ drinking water treatment
- _____ distribution system
- _____ use of water
- _____ wastewater
- _____ sewage
- _____ wastewater treatment
- _____ discharge
